

Tom Talks

As I step into the New Year I now get to mark it was 29 years ago I was asked to join the Baltzer Meyer Guild by Paul Ruff and Don Baker. I was at Hannastown helping to rebuild the second Log Home for Westmoreland County Historical. I had just finished a three year period at Hempfield Band Parents, two of those years as President. I was looking to help out in the community and the chance to help restore a one room schoolhouse with my last name intrigued me. I have been a volunteer somewhere in the county since my mid 20's. As we embark into this New Year I am asking you all to consider to become a volunteer for us at Baltzer Meyer. We have many projects in need of your help. One look at our web site we have our fingers in many different projects. This year we will be presenting the largest project we have ever taken on to be announced in mid April. We are also looking to be involved with the Service Department at Seaton Hill University, increase our education system with Hempfield School District. We are talking with the County and State to increase our presents to the public. We are also talking to the Township Supervisors. Our membership with Westmoreland Heritage to help our buildings as a place to visit thru advertising and will be a host for one of the four yearly meetings of this county group. Our schedule to be a host to Westmoreland County Chamber Bash in April of this year. April will also be our annual open house to members and the public. There are some very busy months on our calendar this year, on our Facebook Page and Web site. I can be reached at tharrold@baltzermeyer.com to talk to you of where you may apply your skills to our future. Thanks and may you all have a healthy and safe New Year.
